

Dear Sir/Madam: I subscribe to satellite radio because it offers programming unavailable to me in my audio market. Programming that will NEVER be available. This programming cuts across the wide spectrum of music, news, commentary, culture and such mundane subjects as traffic and weather, not only in my listening area, but in areas that I frequently travel to.....all at the touch of a button. My right to subscribe and listen to the offerings of XM Radio are protected by the First Amendment to the U.S. Constitution, and I will do all in my power to zealously defend my constitutional right. I therefore petition the FCC, a government agency that ought to serve the public's best interests, to do so and REJECT IN ITS ENTIRETY the NAB's Petition 04-160. Respectfully, Harvey A. Pollack
